

EAGLE

*Energy bills kept rising year to year. My electricity usage is continuous, and this solar system helps mitigate 2/3 of it.*

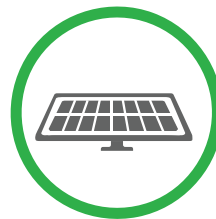

## CASE STUDY

MARSHFIELD ENTERPRISES – HOG FARM

LOCATION

HAYWARD, MINNESOTA

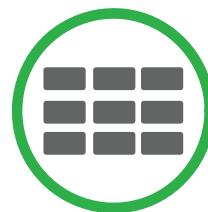

PROJECT

50.32 kW GROUND

ENERGY OFFSET

69% OFFSET, \$250K LIFETIME SAVINGS

JINKO POWER CLASS

MONO PERC 370 WATT

SOLAR | STORAGE

***We trust Jinko. They are innovative, stable, and able to stand by their warranty. Moreover, Jinko's performance and environmental standards are consistently superior to other module vendors. Werner has demonstrated a level of service that we can't get elsewhere. They have convenient terms and delivery, often on a next day timetable that no other distributor has been able to match. – Solar Connection Inc.***

***"I'm happy with everyone that was involved. The utility was easy to work with, as was our contractor, Solar Connection Inc. Solar Connection recommended Jinko solar panels, which don't take up a lot of room and were quick and simple to put in. The system has been working great and I'm really pleased with the outcome."***  
**- Steve Ladlie**

Based in Hayward, Minnesota, Marshfield Enterprises is a farm with a livestock operation with 4,800 head of hog. With the rising costs of electricity, a growing number of farms and agricultural businesses are looking to solar to power their daily operations. Owner Steve Ladlie contacted contractor Solar Connection to help him offset his electricity consumption with solar.

Jinko is an Elite Partner and preferred module supplier for Werner Electric, a top distributor with deep roots in the Midwest region. Jinko's global supply chain, including a solar panel assembly facility in Jacksonville, Florida, and Werner Electric's dedicated energy team and local service ensure cost-effective solar solutions are available to contractors like Solar Connection Inc. Together, we help farmers like Steve Ladlie save on energy bills and reinvest those savings in other areas of their operations.

"Jinko's brand recognition is a big deal – they're known for having some of the best modules on the market and we always want to provide the best for our customers. The most important thing to us is their people and the support we get from them. From their technical support to their logistics updates – it's above and beyond." – Werner Electric
