BACKED BY DUPONT™ TEDLAR®

JinkoSolar is one of the few companies to use DuPont™ Tedlar® backsheet film. It's the same material used in the Mars Lander, the International Space Station, and commercial jets. While solar panels with other backsheet materials often fail before their intended lifespan, the DuPont™ Tedlar® backsheet film is proven to protect solar panels in the field for more than 30 years, even in extreme conditions.

DuPont™, the DuPont Oval Logo, and all trademarks and service marks denoted with ™, ℠ or ® are owned by affiliates of DuPont de Nemours, Inc. unless otherwise noted.
